

Installation Instructions for AirGizmos 6.25 x 8.00 Inch Angle Adapter
Compatible with 695/696, aera 760, AV8OR ACE, iFly 700 Series, and iPad mini Panel Docks
Revision 5, April 10, 2022

Thank you for purchasing the Angle Adapter. This Adapter is designed to be used with the AirGizmos 6.25" x 8.00" Panel Docks®. This Adapter has been designed to fit in the same panel cutout as the Panel Dock. It can be installed for right or left-side viewing. Before beginning the installation process, please take a moment to fill out the registration card.

The Angle Adapter has been shipped with a set of mounting hardware necessary for attaching it to the panel dock. You will still need the hardware supplied with the Panel Dock. The hardware included is as follows: 4 AN364-832A ELASTIC LOCK NUTS, 4 BLACK SCREWS, and 4 AN960-8 FLAT WASHERS.

Step 1: Prepare a hole in your panel

We're assuming that you have the Panel Dock instructions handy, and that you have followed those instructions to prepare the hole in the panel and attach mounting rails if necessary. Once you have prepared the panel and installed the rails you can continue with this document.

You can find a copy of the instructions at www.airgizmos.com

Step 2: Insert the Panel Dock into the Angle Adapter

The Panel Dock will fit in Angle Adapter from only one side. Once you've got the Dock fully inserted, secure it in place using the hardware included with the Angle Adapter.

The screw heads and washers should be located on the outer side of the Angle Adapter, the nuts will be on the inside of the fitted 696 Panel Dock. Be careful not to over tighten the screws.

Step 3: Insert the Angle Adapter

Insert the Angle Adapter into the hole and align the screw holes with the holes in the Angle Adapter. It may be necessary to relieve the panel to provide space around the screw heads on the left side of the Angle Adapter.

Step 4: Attach the assembly to the panel

Secure the Angle Adapter in place using the hardware supplied with the AirGizmos Panel Dock.

Step 5: Complete Panel Dock Installation steps

Installation of the Angle Adapter is complete. You can resume and complete any steps necessary for the Panel Dock installation process.

Congratulations! Your installation is complete. Please email us with any questions you might have at info@airgizmos.com.
